

ROAMpay™ X4

powering True Mobile Point of Sale

The central component to ROAM's mobile commerce platform, ROAMpay X4 is the most secure, easy to use and cost-effective mobile point of sale application on the market. The application goes beyond just enabling mobile payment acceptance, transforming a smartphone or tablet into a true mobile point of sale device.

Incorporating world class security, innovative features and unmatched flexibility, ROAMpay X4 is redefining the mobile point of sale experience for merchants and their customers.

- Intuitive user interface leveraging native device functionality
- Configurable inventory management
- End-to-end data encryption
- Customized branding and white labeling options

ROAM™
POWERING MCOMMERCE
An ingenico® company

Secure

- End-to-end encryption providing the highest levels of transaction data security

About ROAM

ROAM™, an Ingenico company, helps merchants get to market quickly with secure, cost effective and powerful mobile point of sale solutions, regardless of the technology environment. ROAM's "powered by" mCommerce platform provides the hardware peripherals, applications, tools and services enabling companies worldwide to realize the benefits of using mobile to reinvent their interactions with their customers and to create new business efficiencies. Founded in 2005, ROAM is a pioneer in the mobile POS space, having produced and distributed the industry's first secure mobile card reader and today powers mobile point of sale solutions for many of the leading companies in this market, globally.
